NCD Testimonials

Below is a testimonial of a church who have benefited from the NCD process.

The NCD process has been an extremely helpful tool for North Shore Church in evaluating our effectiveness as a church and has resulted in action groups to address weaknesses identified in the NCD survey. We are in the process of developing several church improvements in effective services offered, facility improvements and effective leadership evaluation. We are far from complete but we feel confident the changes being made will be beneficial to our success in meeting the needs of our community and leading non-believers to Christ.
